

The Hispa bus Group has always been committed to discretionary road transport services. Our experience and growth have improved our activity adding new services, as vehicle service, watching, sales and purchase, and vehicle hiring.

The Hispa bus Group provides service in a high-quality level, ensuring all needs are fulfilled, at the same time the organization benefits from the added value created in this activity. Our role is based on the independence, impartiality, legality and professional ethics of our organization.

Quality is a shared objective in all our organization and it is under our direct responsibility. Our client, by choosing us, is ensured with response reliability from the first contact to the end of the service provision.

Hispa bus Group is strongly committed to fitting economic development and environmental protection together. Thus, reaching the objective of providing new generations with a prosperous and healthy environment. Taking the sustainability concept into account implies the compliance of legislation and other codes promulgated to this effect. Moreover, we fulfill our own obligations, as well as our short and medium term goals concerning the reduction of environmental impact.

The main aim of our quality and environment policy is to reach this reality through the constant improvement of our services and the attention given to our client requirements. All this is carried out in environmentally-friendly activities. We strongly believe these are key points to develop a suitable business management in order to ensure the continuity and future competitiveness of our business.

Our environmental objective is to constantly reduce the amount of waste, as well as recycling and reusing more. We also aim for a cleaner provision of services through our annual environmental programs to improve constantly, thus minimizing environmental impacts.

Deep thanks to everyone for supporting this policy.
